Vienna, Jan. 20.

**T**HE 18th Instant General Schlick arriv'd here from Transylvania, and reports that all the Places of that Principality, Deva excepted, are reduc'd to the Emperor's Obedience: And that the Estates of that Country are dispos'd to subsist the Imperial Troops that are there. Those Estates have sent hither a Representation of their Grievances, and desire Redress; and the Prince of Salm has promis'd Regard shall be had thereto. This Court is overjoy'd with the certain News that the Insurrection in Bavaria is quash'd; and the Emperor in Consideration of the good Services General Kriechbaum has perform'd on this Occasion, has conferr'd on him the Title and Dignity of Field-Marshal. The Emperor has writen a Letter to the Members of the Empire, to press them to compleat their Contingents with the utmost Expedition, and to cause their Troops to march so early to their Rendezvous near the Rhine, that they may prevent the Enemy if possible. 'Tis said his Imperial Majesty gives ground to hope, in his Letter, that he will repair in Person to take upon himself the Command of the Army of the Empire, as soon as the Condition of Affairs in Hungary will permit him.

From the Amsterdam Courant, dated Feb. 13.

Vienna, Jan. 30. An Express is arriv'd from Transylvania with Advice, that the Estates of that Principality being assembled, had resolv'd not only to put their Country into a good Condition of Defence, but likewise to raise some Troops against the ensuing Spring, to be employ'd against the Hungarian Malecontents. They have likewise resolv'd to remount the Imperial Cavalry now in that Principality, and for that purpose to buy Horses from Moldavia and Walachia. Next Week a Sum of 250000 Florins will be sent from hence to Transylvania, to be laid out in fortifying several Places. Letters from General Herbeville, say all things go well in that Principality. We have receiv'd the good News, that Count Hercules Montecuculi, having under his Command about 1000 Men regular Troops, and 3 or 4000 armed Peasants, which he had been order'd to draw together to attempt to revictual Trentschin, the Garrison of which Place was in great Distress, advanc'd the 24th of last Month to Brod, where he was joyn'd by 500 Horses and 200 Carts loaded with Provisions: He march'd in the Night, and the next Morning an Hour before Day-break came to a narrow Way, which the Malecontents had barricaded with Trees fell'd and with Stones, and had posted themselves in an Intrenchment to dispute his Passage: He caus'd his regular Troops to attack that Intrenchment, which they did with so great Courage, that tho' the Enemy defended themselves some Hours and made a vigorous Fire, they carried it: Which done, the General caus'd the Trees and Stones to be remov'd, and the Way to be level'd and clear'd, and the 25th in the Evening all the Provisions were conducted into Trentschin. In this Action the Imperialists had but 8 Soldiers kill'd and 18 wounded; but the Malecontents lost 300 Men. 'Tis said General Montecuculi is to joyn General Palfi, who lyes in our Neighbourhood with some Militia and regular Forces, and that when 3 Regiments which have been order'd hither from Bavaria since the Commotions of that Electorate were quell'd, have likewise reinforc'd General Palfi, he will attempt to relieve Oedenburg, which the Malecontents have now a 3d time besieg'd. Prince Eugene of Savoy arriv'd here the 21st Instant, having left the Command of

the Army in Lombardy to General Reventlau: Several Conferences have been since held with him, and 'tis credibly reported this Court will take proper Measures to reinforce the Army in Lombardy to 45000 Men for the ensuing Campaign: This they will be the better enabled to do, by the help of a Loan of a Million of Rixdollars which is newly negociated in England, and for the Repayment of which the Revenues of Silesia are engag'd. A few Days ago M. Almelo came hither from Tirnau, as did on the 28th M. Bruyninx, the other Envoy of the States General: They have had some Conferences with the Imperial Ministers about the Affairs of Hungary; and design to go hence to Mikosch, as soon as they hear the Hungarian Nobility, whom Prince Ragotski has summon'd to meet there, have actually assembled: There is good Ground to believe the said Nobility will meet with good Dispositions to an Accommodation; and that upon their Resolutions the Treaty will be brought to Perfection.

From the Leiden Gazette, dated Feb. 2.

Warsaw, Jan. 15. The 8th of this Month in the Evening, the Swedish Troops that were in our Neighbourhood commanded by General Nieroth, began to pass the Vistula over the Bridge they had laid. The 9th those that were so long encamp'd at Blonia, decamp'd likewise, having with them a Train of 40 Pieces of Cannon. The 10th the Generals Stromberg and Lagercron, pass'd the Vistula with part of those Troops. The 11th General Meyerfeld follow'd with the rest. The 12th the Troops of Prince Sapieha went after the Swedes likewise over the River; and the 14th those of the Palatin of Kiovia did the like. King Stanislaus is gone with the King of Sweden, who leads the Vanguard of his Army. We have receiv'd Advice, that this Army marches in 3 Columns, one towards Pultow, another towards Lublin, and the third towards Tykoczin: that General Nieroth advancing before with 3000 Horse to the Bug, has made himself Master of a Bridge, after a Skirmish with the Muscovites that guarded it, in which several Men were kill'd on both Sides; and that the Muscovites have also abandon'd Pultow on the Approach of the Swedes. King Augustus is at Grodno, with Prince Alexander Menschinkof, who commands the Auxiliary Muscovites under him, and Prince Lubomirski Great Marshal of the Crown.

Dantzick, Jan. 23. 'Last Night a Polish Gentleman arriv'd here, who reports he had certain Advice from Warsaw that an Express had brought thither the News, That the Swedes had forc'd a Post on the Bug defended by the Muscovites, of whom they kill'd a considerable Number, with the Loss of 80 of their own Men: That his Swedish Majesty proceeded from thence to Pultow, where with little Loss he defeated another Body of Muscovites, of whom many were kill'd and some taken Prisoners. That he had resolv'd to march with 2 thirds of his Army by Tykoczin to Grodno, and to send the rest towards Lublin and Bresc, to cut off the Saxons and Cossacks from the Muscovites. Before the King of Sweden left Warsaw, he dispatch'd General Horn with a Commission to the Court of Berlin.

From the Amsterdam Courant, dated Feb. 9.

Warsaw, Jan. 21. The Swedish Army which the 16th Instant pass'd the Bug within 4 Miles of Wigrów, is advanc'd towards Grodno, as we are assur'd by Passengers that met them on the Road thither. The Muscovites have, by Order of King Augustus, abandon'd Pultow, Tykoczin, and other Places;

Places, and are retir'd to the general Rendezvous fix'd on this side Grodno, for the Saxons, Muscovites, and Cossacks to draw together. King Augustus has set Men to work to fortify the Camp he has chosen there, with design to stand his Enemy. The Troops of P. Sapieha and of the Palatine of Kiovia are to pass the Bug to Day, to follow the Swedes. We assuredly expect to hear of a great Action; for Letters from Grodno advise, that King Augustus waited with Impatience to come to Blows with his Enemy.

From the Amsterdam Gazette, dated Feb. 9.

Lublin, Jan. 26. King Augustus, who lately went to Augustow to give some Orders, is return'd to Grodno. We have just receiv'd Advice, that the Swedes have pass'd the Bug over the Ice; and that the Muscovites that were at Tykoczin have thereupon retir'd towards Grodno, to be nearer to join the main Army. Our Advices add, that the King of Sweden being inform'd of this Motion of the Muscovites, has left his Foot, to endeavour with his Horse to overtake them.

Dantzick, Jan. 27. The freshest Advices from the Swedish Army left them advanc'd within 2 Mile, of Tykoczin; and said they would continue their march without loss of time to attack the Saxons, Muscovites, and Cossacks.

Letters from Dresden of the 30th of January, say the Saxon and Muscovite Troops were by Order of King Augustus drawing together at Sorau in the lower Lusatia, in Order to march from thence the 4th of February into Great-Poland; and that Lieutenant General Schuylenbourg was preparing to leave Dresden the 3d of February to put himself at the Head of them, with Design to attack the Swedish General Reinschild.

From the Antwerp Courant, dated Feb. 5.

Berlin, Jan. 24. 12000 Men of the Troops that are in this Part of the Country, are to march with all Expedition to Prussia; and 'tis reported his Prussian Majesty designs to have an Army of 18000 Men in Prussia, to secure that Country against all Events that may happen in Poland.

Hague, Feb. 11. Some Letters from Berlin advise, that a little before the Post came away, the Swedish Minister had notified to the Court, that the Swedes had obtain'd a considerable advantage in Italy against the Muscovites; but give no Particulars. The Prussian Minister here, has receiv'd Letters, which advise, that by the Carelessness of a Bombardier, the Magazine of Powder of Dunamunder Fort, not far from Riga, was very lately blown up, whereby 300 Men of the Garrison perish'd. The Muscovite General Baur, is march'd from Mittau, with 4 or 5000 Men, with design 'tis suppos'd to take advantage of this Disaster.

From the Amst. and Harl. Courants, dated Feb. 11.

Paris, Feb. 5. Several Persons of Quality having offer'd to raise Troops at their own Expence for the King's Service, his Majesty has accepted their Offer, and given them Commissions for 20 new Regiments of Foot, most of which are to be compos'd of 2 Battalions of 500 Men each. The Duke de Maine has 3 for the Princes his Sons, the Duke of Bourbon has 1 for the Duke d'Enghien his Son, the Count de Toulouse 1, the Marshal de Boufflers 1, the Marshal de Noailles 1, the grand Provost 1, the Marquis de Segur 1, and M. Dap 1; but 'tis not yet known who have the rest. Notwithstanding their Offer, the King allows 900 Livres for each Company, for their Arms and Cloathing. M. de Ximenes Lieutenant General, Governour of Maubeuge is dead, the King has given that Government to M. de St. Fremond. 'Tis advis'd from Mantua, that M. de Venuesne Colonel of the Regiment of Chasseurs going out upon a Party with 40 Horse, 60 Grenadiers, 2 Captains, 3 Lieutenants, 5 Corners, and 13 Quarter-Masters, was surrounded by 500 of the Enemy's Dragoons and carried off with all his Party. 3 Ships are arriv'd at Port Louis, from the South-Sea; and 'tis given out they have on board 10 Millions of Livres in Silver and 5 in Merchandize. The Marquis de Langalerie having been sent for

to Court, to answer for some Misdemeanour committed by him in the Bressan; instead of obeying the Order, is secretly retir'd to Bologna in the Ferrarese. The Marquis d'O, carrying 20 Guns and 120 Men, lately took an English Packet-Boat of 14 Guns call'd the Godolphin, commanded by Captain Gibson, on her Voyage from Lisbon for England; on board which were a Captain of Dragoons, a Captain and a Lieutenant of Foot; and the Secretary of the Prince of Darmstadt that was kill'd at Barcelona, whose Heart he had with him, and was to have carry'd it to Vienna to deposite it in some Church there. There were 2 Mails on board, which the Captain caus'd to be thrown over before he yielded
